Note: Remaining volume of mixture consists of de-ionized water (H₂O) equaling 100% by weight.

Section 4 – First Aid Measures

EYE CONTACT:

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

SKIN CONTACT:

If skin irritation or rash occurs: Get medical advice/attention. Remove immediately all contaminated clothing. Rinse skin with water. Do NOT use solvents or thinners.

INHALATION:

Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor/physician.

INGESTION:

Do NOT induce vomiting. Call a poison control center or doctor/physician.

After first aid, seek proper medical attention.

Section 5 – Firefighting Measures

Suitable Extinguishing Media: Carbon dioxide (CO₂), Foam, Powder

Hazards:

Fire may produce irritating and/or toxic gases. In the event of fire and/or explosion do not breathe fumes.

Firefighting Instructions:

DO NOT use water jet as an extinguisher, as this will spread the fire. Shut off the fuel to the fire. Either allow the fire to burn under controlled conditions, or extinguish with foam or dry chemical. Cover liquid spills with foam.

Further Information:

Fire may produce toxic thermal decomposition products. Wear a self-contained breathing device with a full face piece using pressure demand or positive-pressure mode.

Section 6 – Accidental Release Measures

Personal Precautions:

Avoid breathing vapors or mists. Use personal protective equipment. Avoid contact with skin, eyes or clothing. Keep people away from spill/leak.

Environmental Precautions:

Do not allow into any sewer, on the ground or into any body of water. If the product contaminates lakes, rivers or sewage, inform appropriate authorities in accordance with local regulations. Prevent further leakage or spillage if safe to do so. Local authorities should be advised if significant spillages cannot be contained.

Methods for Containment:

Prevent further leakage or spillage if safe to do so.

Methods for Cleanup:

Dispose of waste product or used containers according to local regulations. Clean with detergents. Avoid solvent cleaners. Dam up. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Pick up and transfer to properly labeled containers. Clean contaminated surface thoroughly. Take up mechanically, placing in appropriate containers for disposal.

Section 7 – Handling and Storage

HANDLING PRECAUTIONS

General Handling:

Avoid contact with eyes. Avoid prolonged repeated skin contact. Avoid breathing mists or vapors. Use in a well-ventilated area. Do not empty waste into sanitary drains.

STORAGE CONDITIONS

Safe Storage:

Store in accordance with local regulations. Keep container tightly closed in a dry and well-ventilated place. Keep tightly closed in a dry and cool place. Store only in the original container.
